# TREEHOUSE

## Helping you reignite the magic, as students return to the classroom

Treehouse is an online education platform full of interactive, inspirational and confidence-boosting modules to support schools, their teachers, and pupils to be the best version of themselves.

Designed by the team of psychologists, teachers and motivation experts at Tree of Knowledge, Treehouse offers a unique, fun and flexible way to support the mental health and wellbeing of staff and pupils, and increase motivation and creativity. Modules will include:

| NURTURE | RESILIENCE | CONNECTEDNESS |
| INSPIRATION | THAT "WEE PIECE OF MAGIC" | KINDNESS |
| SELF CONFIDENCE | WELLBEING | MENTAL HEALTH |

Treehouse has been designed to work alongside GLOW, Microsoft Teams, and other online platforms. So whether you are returning to school full time or opting for a blended learning model, this intuitive platform can be used within a classroom or by pupils as home learning, homework or extra-curricular study.

### Primary (including nursery)

50+ modules
Use in classrooms
Use at home with parent
Fun videos
Interactive activities
View pupils progress

### Secondary

50+ modules
Use in classrooms
Use at home independently
Fun videos
Interactive activities
View pupils progress

# TREEHOUSE FAQs

TREEHOUSE

## Who is Treehouse for?

Treehouse is for pupils and staff of primary schools, secondary schools and nurseries.

## Does it support the Curriculum?

Treehouse has been designed to support schools to deliver a wide range of the Curriculum for Excellence: Health and Wellbeing Experiences and Outcomes.

## How will my staff team benefit?

Teachers continue to work tirelessly, handling new stresses, emotional pupils and parents, and uncertainty on a daily basis. There are specific modules on Treehouse, designed to support the mental health & wellbeing of teachers, and it will also give them the tools to have effective conversations with pupils around resilience and mental health.

## What themes does it cover?

Treehouse covers a range of topics, but focuses mainly on developing resilience, mental health & wellbeing, self-confidence, kindness & empathy, inspiration, motivation, creativity and nurture. It's a lot of fun, and we hope that it will help your pupils and staff rediscover that "wee bit of magic".

## How does Treehouse work?

Treehouse is an online education platform which is built using a wordpress learning management system called Learn Dash. This system is used and trusted by companies, universities and training organisations all over the world. Once you sign up to Treehouse, there is a simple process to create log-ins for all of your staff and pupils. Your whole school will then have access to 50+ educational modules specifically designed to support the mental health, wellbeing and soft skills development of your pupils and staff. Better still, with new modules being added throughout the year, skills will just keep on developing. Modules will include a combination of video, reading and writing tasks. These can be used within lessons, set as homework, or form part of a blended learning approach.

## Can this be used in the Classroom?

Yes. This has been designed with ultimate flexibility in mind. It can be beamed onto whiteboards or projected onto screens, as well as used on laptops or PCs. It can also be used for independent learning or in groups to stimulate discussion.

### Can this be used for blended learning?

Yes. Like you, we're not sure what's going to happen over the next wee while, so this platform can be used at home, by pupils, and in the classroom.

### Does it track progress?

Yes. Each pupil will have their own log-ins and can be assigned to a "class", and teachers will be able to see how their pupils are progressing through the modules.

### Once we sign up, how do we get started?

Once you're signed up you'll be offered a cluster demo for your staff. This will cover the key features including how to get around the platform, assign work and monitor progress. This will take no longer than 30 minutes - the system is intuitive so we are confident that it will take very little time to get up to speed. There will be a dedicated support line available, should any issues arise.

### When will it be ready to use?

We are currently putting the finishing touches on Treehouse. It will be ready to use from Autumn 2020 (exact date to be announced soon).

### How much does it cost?

Treehouse costs £499 for the year for access for your entire school. For a limited time only, we're giving schools the chance to sign up for just £399.

### How do you pay for it?

You can pay the annual fee online via credit or debit card, or you can provide us with a purchase order number and we'll invoice you.

### Can I book a demo?

You can book one now by emailing happy@treeof.com - we are now running demos (no longer than 30 minutes) for groups or individuals via Zoom or other suitable conference calling facility.

**We look forward to helping you reignite the magic!**
