

# SSERC professional learning courses

Our professional development courses range from twilight workshops and one day courses, through to residential events lasting up to 5 days in total. As you may know, SSERC was formally awarded the 'GTCS Quality Mark as a Professional Learning Organisation'.

GTCS noted that: 'Evidence from internal and external evaluation shows that those who participate in SSERC professional learning change their classroom practice, with an associated positive impact on pupils'.

It is our belief that this endorsement by GTCS will give increased confidence to those involved in the management of professional learning of their colleagues. The award of the Quality Mark means

that courses offered by SSERC are deemed to be of a standard that meets GTCS' criteria when teachers are completing submissions as part of their Professional Update. <<

Courses available for online booking include:
