

Would you like your school to participate in a climate change project?

This is open to ALL schools and any school taking part can also apply to present their project at The PSTT Children's Conference which will take place at the International Primary Science Education Conference (PSEC) in Edinburgh on Friday 7th June.

What's involved?

Up to 30 schools will have the chance to attend PSEC on Friday 7th June 2019 and present their school project.

The theme of the children's conference is **Climate Change** and we are inviting **ALL schools** to consider a climate change issue relevant to **their local area**.

What you'll receive

- A **FREE Teachers Project Pack**, full of tips and ideas to get you started!
- Ongoing support throughout the duration of your project from the PSTT
- A chance to network with up to 500 delegates at PSEC 2019.

Apply for your chance to share your school's work, and inspire others!

Find out more and apply for your **FREE** project pack at: <https://www.primaryscienceconference.org/childrens-conference>

Can you deliver a project on?

Carbon footprint

Coastal erosion

Deforestation

Energy Production/
Renewable energy

Plastic waste

Food journeys

Or any other issue particular to your local area, or beyond?

June 6-8 2019

Edinburgh International Conference Centre (EICC)
